

# ACCIDENT LIABILITY & LOSS PTY LTD

COMMERCIAL INVESTIGATORS - RISK ANALYSTS

## OH&S MANAGEMENT SYSTEM

**Occupational Health & Safety** is now one of the most important legislations affecting business today.

It is vital for corporate existence to effectively manage and control risks associated with your business and also to negotiate service contracts.

Accident Liability & Loss's director *Alan P Crothers* is a veteran of the Insurance and Commercial Investigation industry in Australia of 30 years, a nationally qualified OH&S consultant and has designed, with a leading OH&S qualified auditor, an **OH&S Management System** specifically for the Private Investigation / Commercial Agents Industry.

The majority of Investigation Companies and Firms that employ or contract investigators and commercial Agents have little or no OH&S policies, procedures or evidentiary systems in place. This System is the due diligent approach to managing your duties as an employer.

**GET COMPLIANT NOW !!! - IT's THE LAW**
